

## CONTENTS OF VOLUME 65

|   |     |
|---|-----|
| Arend, U. and J. Wandmacher, On the generality of logical recoding in spatial interference tasks  | 193 |
| Ashton, R.H. and L. Kessler, Consistency among alternative performance measures in an applied judgment setting                            | 211 |
| Avons, S.E. and W.A. Phillips, Representation of matrix patterns in long- and short-term visual memory                                    | 227 |
| Brown, G.D.A., Phonological coding in rhyming and homophony judgment  | 247 |
| Chastain, G., Feature perturbations are no guessing strategy artifact   | 1   |
| Cooper, W.E., N. Tye-Murray and L.J. Nelson, Missing words and the comprehension of spoken text   | 13  |
| De Loor, M., <i>see</i> A.H.C. van der Heijden  | 75  |
| Drake, R.A., Effects of gaze manipulation on aesthetic judgments: hemisphere priming of affect  | 91  |
| Ducharme, R., <i>see</i> H. Flash   | 115 |
| Emmerson, P.G. and H.E. Ross, Variation in colour constancy with visual information in the underwater environment                         | 101 |
| Flash, H. and R. Ducharme, Development of phasic heart rate patterns during recall and arithmetic tasks                                   | 115 |
| Gerbino, W. and D. Salmaso, The effect of amodal completion on visual matching  | 25  |
| Hagenzieker, M., <i>see</i> A.H.C. van der Heijden  | 75  |
| Hawkins, B., <i>see</i> H.N. Zelaznik   | 181 |
| Jacobs, A.M. and J.K. O'Regan, Spatial and/or temporal adjustments of scanning behavior to visibility changes                             | 133 |
| Kessler, L., <i>see</i> R.H. Ashton   | 211 |
| Kisselburgh, L., <i>see</i> H.N. Zelaznik   | 181 |
| Maylor, E.A., P.M.A. Rabbitt, A. Sahgal and C. Wright, Effects of alcohol on speed and accuracy in choice reaction time and visual search | 147 |
| Nelson, L.J., <i>see</i> W.W. Cooper  | 13  |
| Nilsson, L.-G., <i>see</i> J. Rönnerberg  | 263 |
| O'Regan, J.K., <i>see</i> A.M. Jacobs   | 133 |
| Phillips, W.A., <i>see</i> S.E. Avons   | 227 |
| Rabbitt, P.M.A., <i>see</i> E.A. Maylor   | 147 |

|   |     |
|---|-----|
| Rönnberg, J. and L.-G. Nilsson, The modality effect, sensory handicap, and compensatory functions   | 263 |
| Ross, H.E., <i>see</i> P.G. Emmerson  | 101 |
| Sahgal, A., <i>see</i> E.A. Maylor  | 147 |
| Salmaso, D., <i>see</i> W. Gerbino  | 25  |
| Schreuder, R., <i>see</i> A.H.C. van der Heijden  | 75  |
| Silvers, G., <i>see</i> M.M. Smyth  | 47  |
| Smiley-Oyen, A.L., <i>see</i> J.I. Todor  | 65  |
| Smyth, M.M. and G. Silvers, Functions of vision in the control of handwriting   | 47  |
| Spijkers, W.A.C., Programming of direction and velocity of an aiming movement: the effect of probability and response-specificity                       | 285 |
| Sundström, G.A., Information search and decision making: the effects of information displays  | 165 |
| Todor, J.I. and A.L. Smiley-Oyen, Force modulation as a source of hand differences in rapid finger tapping  | 65  |
| Tye-Murray, N., <i>see</i> W.E. Cooper  | 13  |
| Van der Heijden, A.H.C., R. Schreuder, M. de Loor and M. Hagenzieker, Early and late selection: visual letter confusions in a bar-probe task            | 75  |
| Wandmacher, J., <i>see</i> U. Arend   | 193 |
| Wright, C., <i>see</i> E.A. Maylor  | 147 |
| Zelaznik, H.N., B. Hawkins and L. Kisselburgh, The effects of movement distance and movement time on visual feedback processing in aimed-hand movements | 181 |
